Mr. Sandeep Daga
Managing Director & CIO

As the founder, I bring a passion for identifying undervalued small cap companies with strong fundamentals and compelling growth prospects. Our journey began with a simple vision: to bridge the gap between promising small cap companies and discerning investors seeking high-growth returns. Over the years NRC emerged as a credible institutional platform for small cap investing in the country with a solid performance track record. We have also successfully launched other strategies serving the needs of HNIs and family offices.

Investment Approach :

We are one of the oldest small cap focused PMS in India with a 10+ year track record of generating top-decile long term returns and have emerged as a preferred investment manager for HNIs and Family Offices. Generating superior risk adjusted long term returns from small/mid cap companies requires application of the same rigor and discipline as in private equity investing. We aim to capitalize on opportunities with non-linear triggers for business and earnings momentum leading to alpha generation.
